## Water Restriction Guidelines

In effect June 1 - September 30

Through our continuing effort to conserve water, Long Beach Township allows residential and commercial watering only according to alternating odd/even address numbers and calendar days:

- Addresses with EVEN numbers may irrigate on EVEN calendar days, as needed.
- Addresses with ODD numbers may irrigate on ODD calendar days, as needed.

Automatic sprinkling systems shall be operated only between 5:00 a.m. and 8:00 a.m. every other day.

Handheld hoses must be 3/4" diameter or less and can be used between 7:00 p.m. to 10:00 a.m. according to the odd/even schedule.

*No watering during rain*

Limit excessive watering so as not to cause run off into streets and driveway aprons; however, food establishments shall be permitted to wash down sidewalks, decks, garage aprons and the like.

**Emergency conditions may warrant additional restrictions.**

The above water conservation restrictions are enforced by Municipal ordinance No. 10-44c as mandated by the state of New Jersey

# Solutions to Stormwater Pollution

## Easy Things You Can Do Every Day To Protect Our Water

### A Guide to Healthy Habits for Cleaner Water

**P**ollution on streets, parking lots and lawns is washed by rain into storm drains, then directly to our drinking water supplies and the ocean and lakes our children play in. Fertilizer, oil, pesticides, detergents, pet waste, grass clippings: You name it and it ends up in our water.

Stormwater pollution is one of New Jersey's greatest threats to clean and plentiful water, and that's why we're all doing something about it.

By sharing the responsibility and making small, easy changes in our daily lives, we can keep common pollutants out of stormwater. It all adds up to cleaner water, and it saves the high cost of cleaning up once it's dirty.

As part of New Jersey's initiative to keep our water clean and plentiful and to meet federal requirements, many municipalities and other public agencies including colleges and military bases must adopt ordinances or other rules prohibiting various activities that contribute to stormwater pollution. Breaking these rules can result in fines or other penalties.

**As a resident, business, or other member of the New Jersey community, it is important to know these easy things you can do every day to protect our water.**

### Limit your use of fertilizers and pesticides

- Do a soil test to see if you need a fertilizer.
- Do not apply fertilizers if heavy rain is predicted.
- Look into alternatives for pesticides.
- Maintain a small lawn and keep the rest of your property or yard in a natural state with trees and other native vegetation that requires little or no fertilizer.
- If you use fertilizers and pesticides, follow the instructions on the label on how to correctly apply it.

Make sure you properly store or discard any unused portions.

### Properly use and dispose of hazardous products

- Hazardous products include some household or commercial cleaning products, lawn and garden care products, motor oil, antifreeze, and paints.
- Do not pour any hazardous products down a storm drain because storm drains are usually connected to local waterbodies and the water is not treated.

- If you have hazardous products in your home or workplace, make sure you store or dispose of them properly. Read the label for guidance.

- Use natural or less toxic alternatives when possible.
- Recycle used motor oil.
- Contact your municipality, county or facility management office for the locations of hazardous-waste disposal facilities.

### Keep pollution out of storm drains

- Municipalities and many other public agencies are required to mark certain storm drain inlets with messages reminding people that storm drains are connected to local waterbodies.

- Do not let sewage or other wastes flow into a stormwater system.

### Clean up after your pet

- Many municipalities and public agencies must enact and enforce local pet-waste rules.
- An example is requiring pet owners or their keepers to pick up and properly dispose of pet waste dropped on public or other people's property.
- Make sure you know your town's or agency's requirements and comply with them. It's the law. And remember to:

- Use newspaper, bags or pooper-scoopers to pick up wastes.
- Dispose of the wrapped pet waste in the trash or un-wrapped in a toilet.
- Never discard pet waste in a storm drain.

### Don't feed wildlife

- Do not feed wildlife, such as ducks and geese, in public areas.
- Many municipalities and other public agencies must enact and enforce a rule that prohibits wildlife feeding in these areas.

### Don't litter

- Place litter in trash receptacles.
- Recycle. Recycle. Recycle.
- Participate in community cleanups.

### Dispose of yard waste properly

- Keep leaves and grass out of storm drains.
- If your municipality or agency has yard waste collection rules, follow them.
- Use leaves and grass clippings as a resource for compost.
- Use a mulching mower that recycles grass clippings into the lawn.

## **SHELL RECYCLING DROP OFF**

**CONSUME** oysters & clams  
at home.

**DROP OFF** at the DPW yard  
in shell bins for collection.

**CURE** shells for 6 months &  
prime them to support  
new oyster growth.

**CULTIVATE** by using cured  
shell in bay restoration.

The Public Works recycling yard is now **collecting shells** to use in local restoration projects.

Please help this project by recycling **CLEAN SHELL ONLY**  
{Oyster & Clam} in the designated containers at the collection site.

This initiative is supported by the LBT Field Station along with Jetty Rock Foundation who designed the drop off signs and donated bins!

**Location:** 7910 Long Beach Blvd Beach Haven Crest (DPW)

**Hours:** Monday - Friday, 8:00-2:30pm (**fall/winter/summer**)  
Saturday - Sunday, 8:00-12:00pm (**summer**)

## A MESSAGE FROM YOUR BOARD OF COMMISSIONERS

**Happy New Year! We're excited to celebrate the Sweet 16 of our annual Recycling and Trash Calendar!**

In the spirit of "Reduce, Reuse, Recycle," Long Beach Township has been thinking outside the box. Since 2017, we've proudly led the way as the first-and still the only-municipality to collect oyster and clam shells from the waste stream for bay and oyster restoration projects. While not technically recycled, these shells are put to good use. Each week, our DPW team picks them up and cures them with help from Ocean County partners. Curing simply means letting the shells weather naturally to remove algae and prevent introducing foreign material into our waters.

Want to see how these shells make a difference? Visit [www.lbtfieldstation.com](http://www.lbtfieldstation.com) for updates on projects like the Tuckerton Research Reef with Stockton University, the Coastal Program with local oyster farmers, and our own bay island restoration efforts. The Clam Cove project is underway-check out the progress online!

A big thank-you to our restaurant partners for setting shells aside. Next time you dine out, raise a glass to their efforts!

The LBT Field Station also offers summer programs focused on shell recycling and restoration, along with family-friendly educational events hosted by our partners. Sign up for our newsletter to stay informed.

Of course, we continue traditional recycling efforts too-partnering with the county for household hazardous waste collection, document shredding, and even the newer boat flare collection program. For a full list of recyclable materials not collected curbside, visit the Ocean County Recycling Guide on our township or county website. You can also download the Recycle Coach App for quick access to local recycling info or simply scan the barcode next to the logo.

Don't forget to check the calendar inserts for handy references on curbside collection, health department contacts, water restrictions, and stormwater pollution prevention.

**Wishing you a happy, healthy, and safe New Year!**

Sincerely,  
Mayor Joseph Mancini  
Commissioner Joseph Lattanzi  
Commissioner Alexander Meehan
