AMERICANS WITH DISABILITIES ACT OF 1990
Equal Opportunity for Individuals with Disability

The contractor and the Township of Long Beach, (hereafter "owner"), do hereby agree that the provisions of Title 11 of the Americans With Disabilities Act of 1990 (the "Act") (42 U.S.C. 5121 01 et seq.), which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated pursuant there unto, are made a part of this contract. In providing any aid, benefit, or service on behalf of the owner pursuant to this contract, the contractor agrees that the performance shall be in strict compliance with the Act. In the event that the contractor, its agents, servants, employees, or subcontractors violate or are alleged to have violated the Act during the performance of this contract, the contractor shall defend the owner in any action or administrative proceeding commenced pursuant to this Act. The contractor shall indemnify, protect, and save harmless the owner, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages, of whatever kind or nature arising out of or claimed to arise out of the alleged violation. The contractor shall, at its own expense, appear, defend, and pay any and all charges for legal services and any and all costs and other expenses arising from such action or administrative proceeding or incurred in connection therewith. CERTIFICATION OF BUSINESS REGISTRATION

(N.J.S.A. 52:32-44) (P.L. 2004, c.57)

All business organizations that do business (i.e., compete for or enter into a contract) with a State, County or Local Contracting Agency are required to be registered with the State and provide proof of their registration with the contracting agency. Proof of valid business registration shall be in the form of a Business Registration Certificate issued by the Department of the Treasury, Division of Revenue. Information on how a business can obtain a certificate is located on the Internet at www.nj.gov/njbgs or by telephone at 609-292-1730. The purpose of the registration is to ensure that all businesses and their subsidiaries receiving government contracts pay appropriate sales, use, and other taxes. A contractor and its subcontractor(s) must collect and remit to the Division of Taxation the use tax pursuant to the Sales & Use Tax Act on all sales of tangible personal property delivered into this State. Notice of these requirements must be provided in bid specifications, requests for proposals and any other documents notifying potential contractors or procurement opportunities.

Business registration is required for any contract in excess of \$6,000 (15% of \$40,000) for municipalities with Qualified Purchasing Agents.

A contracting agency shall not enter into a contract with a business organization unless it has received proof of the business registration at the time of the bid or the proposal submission, in response to a request for bids or proposals. For all other transactions, the proof of business registration must be received prior to the issuance of a purchase order or other contracting document.

All public contractors submitting bids for public work must submit a copy of their proof of business registration with their bids. Bidders must also obtain and submit proof of registration from those subcontractors at all levels (tiers) if the specifications require the subcontractor to be listed or named in the bidder's submission. Proof of valid business registration must be provided by the bidders and their named subcontractors at all levels (tiers) at the time the bid or proposal is officially received and opened by the contracting agency if required by the specifications. Failure to submit proof of registration is considered a mandatory rejection of bids and is non-waivable by the contracting agency.

The contractor shall provide written notice to its subcontractor and suppliers of the responsibility to submit proof of business registration to the contractor. The requirement of proof extends down through all levels (tiers) of the project. After the award of a project, the contractor has the obligation to obtain proof of registration from each subcontractor or a supplier on the project (in addition to those listed or named in the bid submission) and file proof of their business registration with the contracting agency prior to receiving final payment.

If there are no subcontractors on a project, the contractor must certify to that effect.
